LIBERTY TRUST NEWS # 18 - NOV 1995

Dear Contributors and Sponsors,

Firstly a welcome to those who have joined since our last newsletter. In March Darryl declared in frustration that he was going to pray for one new member a week. We joined his prayer, and since then the prayers have been more than answered. Although Kathleen and I have been overseas for three months, and at present John and Jeannie are, the growth continues. "Challenge Weekly" in Denmark published an interview about Liberty Trust and photographed us. They posted us a copy, all in Danish! God's people everywhere love His principles.

We appreciate the letters of encouragement we have received. You can guess the time input we have, as volunteers! Some of us will attend a symposium in Auckland on 11/12 December for Christian organisations involved in finance, and meet with Auckland Liberty Trust.

Mortgages

Five mortgages have been given this year, with another two to go before Christmas. Two have recently paid theirs off completely, and are so thrilled to own their own homes, which would not have happened for years had they been paying interest. Now one has gone to Bible College, and the others considering joining again for their next home. They are free to live and give to God's Kingdom in a far greater way.

Peter Swain of Kawerau who has the latest interest-free mortgage writes:

"Freedom from financial oppression should be foremost in the minds of leaders of nations. Unfortunately control and greed supplant this God-given privilege to humanity.

The Lord has blessed us through leadership which has built the Liberty Trust concept, and I rejoice that all His people who are members will be blessed as I have been with an interest-free mortgage. The more people we can plant into this granary the quicker freedom will come.

A big thank you to Liberty Trust leadership which donates so much time, skill, effort and prayer, that others may be free."

Publicity

We have a vacancy for a person to join us and lead this important section, preferably in the Eastern Bay of Plenty so they can join our meetings. Kelvin has been arranging promotion, but it is time for someone else to release him. We are still working on the video, suitable for home groups. New brochures have been printed, so share these around to spread the blessing. Many people ask us why they have not heard about Liberty Trust before, so make sure you tell those in your circle.

Other Ideas

People have suggested other ways which are within the scope of Liberty Trust's Trust Deed such as savings accounts to free God's people from bondage to debt to the world, and the Trustees are praying about these and considering them with our solicitor.

Share this newsletter around, and the brochures, and Be a Blessing where you are.
