The BIG 50!

Yes, we have now given 50 interest free mortgages. To commemorate this, we visited and photographed local families with L.T. mortgages. It was indeed a blessing hearing their testimonies. We would like photographs from the other 25 families throughout New Zealand as well.

Churches Working Together

Last weekend we joined the "Churches Working Together" marquee at the Whakatane A & P Summer Show. We set up the L.T. Power-Point presentation on a computer and mounted an impressive photo display of our local interest-free families.

Blessings to Hamilton

Two houses in Hamilton have become interest-free so far in '98. One family was sponsored by their church for several years while they were in church ministry. The other is a newly-wed couple who were sponsored by parents while studying. It is great to see God's principles put into practice. - How about sponsoring your child?

We now have 201 members. A further 14 have fully repaid their mortgages. Monthly income has now reached \$35,800. Each month our income is about \$600 more than that of the previous month. There were six new members in February!

'King'dom Living

"I would like to thank Liberty Trust for your commitment to seeing Christians set free from home mortgages. Today's finance rates and the size of people's mortgages can be very crippling to my families.

"We received an interest-free draw in November 1996 which has enabled us to build a two bedroom unit for my mother.

"Today there is a need for families to stick together and to help one another when needs arise. Today's society says to help yourself and get what you can when you can and not to worry about others, but this is contrary to God's Word.

"While building this unit we had many big and small miracles.

- *Boundary dispensations*
- *A Christian builder and friend*
- *We were a part of what was happening and able to pray every day for the work, the men who worked on site, and God's purpose for the unit.*
- *One of the builders who was not a Christian surrendered his life to Jesus.*

"God has a purpose for all things, and I believe building this unit is in accordance to his plan for my family's future.

"This could not have happened without God's blessing and Liberty Trust which has enabled us to do it."

*Greg and Judy King
Servants of Jesus Christ*

Thought for the day

I have just been reading an article in a computer magazine which quotes the saying of a man named Gordon Moore, co-founder of Intel Corporation (the world's largest maker of computer chips).

In 1965 he said that "both the speed and memory capacity of computers double every 18 to 24 months."

'Moore's Law' has been true until now. But apparently, starting this year, the speed of technological change is going to become much faster and leave Mr.

Moore's statement for dead. This speed and miniaturisation in technology is going to have a profound effect upon us all, in everything from cameras and cars to the telephone; even to the way we handle money and our way of life.

The book of Ecclesiastes says that everything has a time. God sent His Son into the Roman Empire, brutal as it was, because for the first time in history one empire ruled the known world and could provide a system of justice and roads that would enable the early Church to expand throughout the known world. Now He has birthed Liberty Trust at a time when computer technology can be utilized to bring financial systems to His people which will prepare them for the last days.

As I read I couldn't help recalling the words of Jesus, that in the last days there will be a great increase in knowledge. We were made in "His" image, and like our heavenly father, man is naturally creative. The unfortunate thing is that because man needs to worship, he tends to worship these (his creations) and not the Creator who created it all.

The more I see of man's technological creations, the more I marvel at the divine miracle and wisdom in God's creation. For example, recently Kathleen and I spent a weekend on holiday with our children and

**technology can be
utilized to bring
financial systems to His
people which will
prepare them for the
last days.**

grandchildren. What a marvelous creation is God's equipping of "parenthood". The complexity of birth, the patience, stamina, and instinct of parenting, didn't just "happen" by some fluke of chemical combination some thousands or millions of years ago. God both designed and created life with infinite wisdom.

Man's creative achievements only prove how great the amazing love, wisdom, and purpose of God the ultimate creator.

"Yet God so loved the world,
that He gave His only Son".

True, the creation of life is His - How much more His divine purpose for each of our lives, now and far beyond this life.

Mystery Money

A \$200 deposit was banked to Liberty Trust in December. We do not know who to credit this to. Please let us know if it is your donation.

Dear Trustees,

"Thank you for
the work you are doing
and for your faithfulness
in God's kingdom.

"My sister and I
continue to give thanks
for the home the Lord
has provided with an

interest free mortgage. This has been such a blessing - I have not had to borrow from the bank at all, as this is my first home.

"It was actually a friends' ballot which was drawn but as this person was not led to use it at this time they decided to 'sow' it. I have received this gift with gladness, knowing that the giver will reap a greater harvest - even a hundred-fold return! And we are truly grateful to be out of the shifting and renting cycle earlier than we had expected.

"Bless the Lord for He is good and His love endures forever.

God bless you."
